-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1 the limitation "a feature" is not clear. That is the applicant has not clearly defined what the feature is and/or how it operates

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published undersection 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a

patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-8 is rejected under 35 U.S.C. 102(e) as being anticipated by Derbyshire et al (US 2002/0044050).

Regarding claims 1-8 Derbyshire et al teaches a tire pressure sensor 9 10 for automobile vehicle wheels (abstract) and a microprocessor 6 19 for pressure measurement and for control of a radio transmission circuit 5, the sensor 9 10 having a module for activating the microprocessor 6 19 associated with an activation control timer 100 26, characterized in that wherein the timer 26 100 is programmable [0018] and means are provided for programming it [0119].

### ***Allowable Subject Matter***

3. Claims 16-25 is allowed.

### ***Response to Arguments***

4. Applicant's arguments filed 7-27-07 have been fully considered but they are not persuasive.

In response to the applicants arguments that the cited prior art does not disclose "a module for activating the microprocessor that is associated with an activation control timer that is programmable, and a feature for programming the timer". Derbyshire clearly teaches a module , timer 100 that is expressed to be "programmable" in section [0018] and means for programming in section [0019]. It is further noted that it is not explicit whether the timer is used to activate the micrporcessor, it would be clearly suggestive for a person in the endeavor of sensorr/module arrangements to include a feature that would activate the microprocessor since this is critical for the microprocessor to function.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
